

# MONTANA ATHLETIC CLUB'S

## keeping you safe series

### TODAY'S TOPIC: SANITIZED DOOR AND PUSH/PULL HANDLES

What is the one thing everyone touches coming in and out? Door handles! They are everywhere throughout the facility. Then you have other touchpoints, like water fountains, handles and the like.

NanoSeptic continuously self-cleaning patches are used in schools, hospitals, transportation hubs - the Skins and Mats turn dirty, high-traffic touchpoints into continuously self-cleaning surfaces.

Powered by light, NanoSeptic surfaces utilize mineral nano-crystals which create a powerful oxidation reaction. These work 24/7, as the surface continually oxidizes organic contaminants.

NanoSeptic surfaces use no poisons, heavy metals or chemicals and nothing is released from the surface, as the nano-crystals are molecularly bonded to the material.

Our foremost concern is our Members and Guests. Not only in protecting them from COVID and other germs, but to ensure they are staying fit and healthy, both in body and mind.

**STUDIES HAVE PROVEN THAT STAYING FIT HELPS NOT ONLY FIGHT OFF ILLNESS, BUT LESSENS THE IMPACT IF YOU ARE INFECTED.**

This pandemic has also stressed our social life. Part of our mission is to provide a place for people to meet and socialize. While this has been difficult with all the restrictions in place, we are continually looking for ways to keep you safe.

**We are proud of our members/guests for following the guidelines to ensure we can stay open for you.**

**WEAR MASKS IN COMMON AREAS (NOT REQUIRED WHILE WORKING OUT), SOCIAL DISTANCE AND JUST BE CAREFUL.**

**The Bigfork community is strong and resilient. We will get through this together!**
