

MONTANA ATHLETIC CLUB'S

keeping you safe series

TODAY'S TOPIC: FLOOR SANITATION

STERILASER™ Floor units deliver massive doses of germicidal ultraviolet (UVC) light to disinfect anything from hospital rooms to wrestling and gymnastic mats to public showers or any other large surface. They destroy dangerous germs, bacteria and viruses such as Corona or Influenza Viruses, Hepatitis, STAPH (including MRSA), E-Coli, Salmonella and HIV.

Here at the Montana Athletic Club, we use the Sterilaser on all flooring, particularly the turf area, during the day. Later, after night cleaning, we run the unit all through the MAC for final sanitation.

When used in conjunction with our air sanitation units, the Sterilaser delivers a one-two punch for any virus lounging around the MAC!

Our foremost concern is our Members and Guests. Not only in protecting them from COVID and other germs, but to ensure they are staying fit and healthy, both in body and mind.

**STUDIES HAVE PROVEN THAT
STAYING FIT HELPS NOT ONLY
FIGHT OFF ILLNESS, BUT
LESSENS THE IMPACT IF YOU ARE
INFECTED.**

This pandemic has also stressed our social life. Part of our mission is to provide a place for people to meet and socialize. While this has been difficult with all the restrictions in place, we are continually looking for ways to keep you safe.

We are proud of our members/guests for following the guidelines to ensure we can stay open for you.

**WEAR MASKS IN COMMON AREAS
(NOT REQUIRED WHILE WORKING
OUT), SOCIAL DISTANCE AND
JUST BE CAREFUL.**

The Bigfork community is strong and resilient. We will get through this together!
